### **PROPOSED ALLDAYS SOLAR FACILITY PHOTOVOLTAIC (PV)/ CONCENTRATED PHOTOVOLTAIC (CPV) SOLAR ENERGY FACILITY – PHASE 1(75MW), LIMPOPO PROVINCE**

Thank you for your indication of the availability of the Final Scoping Report for this project.

In terms of the National Heritage Resources Act, no 25 of 1999, heritage resources, including archaeological or palaeontological sites over 100 years old, graves older than 60 years, structures older than 60 years are protected. They may not be disturbed without a permit from the relevant heritage resources authority. This means that before such sites are disturbed by development it is incumbent on the developer (or mine) to ensure that a **Heritage Impact Assessment** is done. This must include the archaeological component (Phase 1) and any other applicable heritage components. Appropriate (Phase 2) mitigation, which involves recording, sampling and dating sites that are to be destroyed, must be done as required.

#### **Decision:**

SAHRA has received the Final Scoping Report and the Heritage Scoping Report for the proposed project. It is noted that no Palaeontological Assessment was undertaken for this project. SAHRA APM Unit will comment on this project upon receipt of the Palaeontological assessment.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
