Environmental Basic Assessment Process and Mining Permit Application for the Proposed Formalization and Expansion of an Existing 0.68ha Borrow Pit (Ref: UBP031), Located on the Farm Nobamba No. 16505, within the Ulundi Local and Zululand District Municipalities of KwaZulu-Natal

The application for comment in terms of heritage legislation and the Heritage Impact Assessment by Frans Prins conducted on 19 and 20th November 2015 has been considered.

Since the survey did not find any heritage resources within and immediately around the development footprint, the development is not considered a threat to known sites and features. Amafa therefore has no objection to the development .

You are also required to adhere to the below-mentioned standard conditions:

Conditions:

1. Amafa should be contacted if any heritage objects are identified during earthmoving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from Amafa.
3. No activities are allowed within 50m of a site, which contains rock art.
4. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Failure to comply with the requirements of the National Heritage Resources Act and the KwaZulu Natal Heritage Resources Act could lead to legal action being instituted against the applicant.

This decision is **valid for a period of two years.**
