Environmental Basic Assessment Process and Mining Permit Application for the Proposed Formalization and Expansion of an Existing 0.72ha Borrow Pit (Ref: UBP002), Located on Sub 4 of Reserve 20 No. 15840, within the Ulundi Local and Zululand District Municipalities of KwaZulu-Natal.

Thank you for the opportunity rendered to Amafa to comment on this development proposal. Amafa requires a field based Heritage Impact Assessment of the proposed area of development and its surroundings to ensure that suitable recommendations and mitigation measures can be offered. The area of development is generally sensitive and there is a possibility that heritage resources including places to which oral traditions are attached, informal graves, abandoned homesteads and stone age deposits exist here. farmland in this region has yielded valuable heritage resources during surveys.

The Study should cover:

- Identification of all heritage resources in the development area and its surroundings -50m
- Assessment of the impact of the development on such heritage
- Evaluation of the impact of the development on heritage resources relative to the sustainable social and economic benefits to be derived from the development
- Results of consultation with communities affected by the proposed development and other interested and affected parties regarding the impact of the development on heritage resources.
- Consideration of alternatives if heritage resources are affected by the development
- Mitigation plans for any adverse effects during and after completion of the project
- Table of all heritage resources identified. This should show Heritage resource type, description, location, significance and reasons for this rating.
