Interim Comment

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: PG Bison

Expansion of the existing PG Bison particle board manufacturing plant in Mkhondo through the establishment of a new 800m³/day MDF (Medium Density Fibreboard) line and an additional MFB (Melamine Faced Board) line. Mkhondo (previously Piet Retief), Mpumalanga

PG Bison (Pty) Ltd is proposing to extend their existing particle board factory on Portion 20 of the farm Vroegeveld 509 IS, in Mkhondo Local Municipality of the Mpumalanga Province.

Zutari (Pty) Ltd have been appointed to undertake an environmental assessment as part of the Basic Assessment process in support of an Environmental Authorisation (EA) in terms of the National Environment Management Act, Act 107 of 1998 (NEMA) for activities that trigger the NEMA EIA 2014 Regulations.

A Basic Assessment Report was submitted to the South African Heritage Resources Agency (SAHRA) for commenting in terms of section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). The report states that an Heritage Impact Assessment (HIA) must be conducted if any heritage is uncovered during mining activities. However, an HIA must be undertaken during the mine approval process and not after.

Interim Comment

As the proposed development is undergoing an EA Application process in terms of the National Environmental Management Act, 107 of 1998 (NEMA), for activities that trigger the NEMA Environmental Impact Assessment (EIA) Regulations. It is incumbent on the developer to ensure that a Heritage Impact Assessment (HIA) is done as per section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). This must include an archaeological component, palaeontological component and any other applicable heritage components. The HIA must be conducted as part of the EA Application in terms of NEMA and the NEMA EIA Regulations.

The archaeological component of the HIA should follow the SAHRA 2007 Minimum Standards: Archaeological Component of Impact Assessment Report. The quickest process to follow for the archaeological component would be to contract a qualified archaeologist (see www.asapa.co.za or www.aphp.org.za). *The Minimum*

Standards refers to a Letter of Recommendation for Exemption from further studies, that may be submitted should the archaeologist deem it appropriate.

The applicant is advised to extend the BAR process in terms of section 19(1)b of the NEMA EIA regulations in order to comply with this comment.

Further comments will be issued upon receipt of the requested.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
