Final Decision

In terms of Section 38(2) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mr Trust Mlilo
Sativa Travel and Environmental Consultants

SCREENING REPORT FOR PROPOSED AFRIMAT JENKINS 11KV POWERLINE IN THE NORTHERN CAPE PROVINCE

Eskom has submitted an application in terms of section 38(1) of the National Heritage Resources Act, Act 25 of 1999 (NHRA) for a proposed 11kV powerline from the Bulkop Substation to Farm Jenkins 562, near Glosam, Northern Cape Province.

The powerline will be a total of 1.5 km long and is proposed to be constructed along the R325 road and along existing access roads and fence line. The proposed development is located in an area of moderate and very high palaeontological sensitivity as per the SAHRIS PalaeoSensitivity map.

Two previous assessment of the impact to heritage resources were conducted in the surrounding area (Case ID 5648 <https://sahris.sahra.org.za/cases/hia-eskom-manganore-ferrum-eia-phase> and <https://sahris.sahra.org.za/heritage-reports/aiamorokwamorrisdaug01>). These reports did not identify any significant heritage resources within the surrounding areas.

Final Decision

As the powerline will be built in a disturbed area and there are likely no *in-situ* heritage resources, no further assessment of the impact to heritage resources is required as per section 38(2)a of the NHRA.

The following comments are made as a requirement in terms of section 38(2) and 38(4) of the NHRA and must be adhered to:

- 38(4)a – The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit has no objections to the proposed development;
- 38(4)b – No further conditions are required for the development;
- 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash
