Letter

In terms of Section 38(2) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Miss Prudence Khosa
Eskom Distribution- LOU
92 Hans van Rensburg
Polokwane

Eskom Holdings SOC Ltd, Limpopo Operating Unit (LOU) intends to construct the power line for the above-mentioned project. The power line will include new 2794M LV and 570 M MV, which will T-off from the existing power line in pole number KNP61/47/37 (refer to the Span plan sheets and the Pegging Coordinates for more information). The power line is traversing on Flora village in Molemole Local Municipality of Capricorn District Municipality of the Limpopo Province.

Eskom SOC Ltd Limpopo Operating Unit (LOU) has submitted a section 38(1) of the National Heritage Resources Act, no 25 of 1999 (NHRA) application, on behalf of their applicant to obtain a SAHRA decision in terms of section 38(2) of the NHRA for the construction of a MV power line 470m long and the LV power line is 2794m in length starting at the KNP 22kV feeder, to provide electricity to an Eskom Customer in Flora Village, Limpopo Province.

However, the proposed power line is not mapped correctly as it appears in the span plan document and a proper assessment of potential heritage resources on the palaeo-sensitivity map cannot be undertaken.

SAHRA Response to Notification of Development

This application constitutes a section 38 (1) application for approval by SAHRA in terms of the National Heritage Resources Act, no 25 of 1999 (NHRA), as the proposed power line exceeds 300 metres in length. As such SAHRA is providing response in terms of section 38(2) with regards to this application.

SAHRA Archaeology, Palaeontology and Meteorites Unit cannot make an informed decision on this proposed development because the information provided to this case is not enough to determine decisively that heritage resources will not be disturbed or damaged by the proposed power line construction. In order for SAHRA to process this case, The SAHRA requests that an amended .kml file that shows the power line route as it appears on the Span Plan document must be submitted to the case.
