Final Decision

In terms of Section 38(2), 38(4) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Ms Maria Rampjapedi
Eskom - LOU
P.O.Box 3499
Polokane
0700

Eskom Holdings SOC Ltd, Limpopo Operating Unit (LOU) intends to construct the powerline for the above-mentioned project. The powerline will include MV which will be connected to the existing powerline in the area (refer to the Span plan sheets and the Pegging Coordinates for more information) Lenyenye, Greater Tzaneen local Municipality of the Limpopo Province.

Eskom has submitted an application in terms of section 38(1) of the National Heritage Resources Act, Act 25 of 1999 (NHRA) for a proposed 22kV powerline in the Lenyenye Village.

The proposed new powerline will be 5.5km running along an existing gravel road, and in some portions along an existing power line. An existing power line will be dismantled in some portions and other portions will be upgraded. The current power line under application will t-off at the Lenyenye-Letsitele 22KV rural feeder and will be supplying electricity to supply to various households in the Lenyenye Village. The proposed development is located in an area of negligible palaeontological sensitivity as per the SAHRIS PalaeoSensitivity map.

The SAHRA issued a letter dated 23/06/2022 requesting an amended .kml file that maps the proposed power line route as it appears in the survey diagram. An amended .kml file was submitted 20/08/2022.

Final Decision

As the new line will be built in a disturbed area and there are likely no in-situ heritage resources, no further assessment of the impact to heritage resources is required as per section 38(2)a of the NHRA.

The following comments are made as a requirement in terms of section 38(2) and 38(4) of the NHRA and must be adhered to:

Page No: 2

38(4)a – The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit has no objections to the proposed development;

38(4)b – No further conditions are required for the development;

38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA APM Unit (Elijah Katsetse/Phillip Hine 021 462 5402) must be alerted as per section 35(3) of the NHRA.

Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;

38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA Burial Grounds and Graves (BGG) Unit (Thingahangwi Tshivhase/Ngqalabutho Madida 012 320 8490), must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;

38(4)d – See section 51(1) of the NHRA regarding offenses;

38(4)e – The following conditions apply with regards to the appointment of specialists:

If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Nokukhanya Khumalo
