Letter

In terms of Section 35 of the National Heritage Resources Act (Act 25 of 1999)

Attention: Melchoir Raath

We purchased tailing resources from De Beers Mining Company, located on erven 6376,5024,5058 and 6785 (Farm Vooruitzicht 81, including the Kemo Dump).

Please note the following gaps with the permit application:

- Please upload a PoP for the permit application fee of R800 as per the following link: <https://sahris.sahra.org.za/content/what-are-sahra-processing-fees-and-banking-details>
- Please provide a methodology of the destruction and the monitoring of the destruction, noting who will monitor the destruction of the 70% of the site;
- Letter from McGregor Museum to accept any material uncovered during the destruction and records.

The following gaps are evident in the CMP as per the SAHRA Guidelines for Site Management Plans:

- 4.4. There is no discussion regarding stakeholders linked to the site, meetings or stakeholder input into the CMP;
- 4.8 No SWOT analysis has been conducted;
- 4.10 Visitor Management must be expanded upon such as entrance fee, carrying capacity, and safety of visitors;
- 4.15 Monitoring and evaluation principles to be discussed including a monitoring schedule and monitoring reports;
- 4.16 No discussion regarding implementation plan and reporting;
- Additionally, the site is not a Provincial Heritage Site.

Please amend the above in order for the destruction permit to be processed.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.
