Proposed construction of a 22KV power line, Remaining extend Orinoco 233 KU, Dwarsloop, Bushbuckridge local Municipality, Mpumalanga Province. Project Name: Eskom, Project Number TDW100/64/39/9

Eskom proposes the construction of a 339 km 22Kv power line on the remaining extent of farm Orinoco 233 KU near Dwarsloop, Bushbuckridge Local Municipality, Mpumalanga Province. Considering the limited footprint of the power line and its location within a residential area, SAHRA is of the opinion that it is unlikely that significant heritage resources will be encountered during the construction.

As there is apparently no evidence of any significant archaeological or palaeontological material in this area, the SAHRA Archaeology, Palaeontology and Meteorites Unit has no objection to the development. If any new evidence of archaeological sites or artefacts, palaeontological fossils, graves or other heritage resources is found during development, SAHRA and an archaeologist and/or palaeontologist, depending on the nature of the finds, must be alerted immediately.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Phillip Hine
Heritage Officer

Construction of a 22KV Eskom power line
