## Response to NID (Notification of Intent to Develop)

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Council for Scientific and Industrial Research  
P O Box 320  
Stellenbosch  
7599

South Africa

**Basic Assessment for the Dani Property Trust commercial poultry enterprise. Key components of the proposed project include: Clearance of more than 300 square metres of indigenous vegetation within a watercourse;**

Dani Property Trust proposes to construct a chicken farm with its related poultry facilities on 3 hectares of the total 21.4 ha of the farm trading as Kganana Poultry Farm. It will be located on Portion 81 of the farm Jakkalsdans 243, Nokeng Tsa Taemane Local Municipality, Gauteng Province.

In terms of the National Heritage Resources Act (NHRA), no 25 of 1999, heritage resources, including archaeological or palaeontological sites over 100 years old, graves older than 60 years, structures older than 60 years are protected. They may not be disturbed without a permit from the relevant heritage resources authority. This means that before such sites are disturbed by development it is incumbent on the developer (or mine) to ensure that a Heritage Impact Assessment is done. This must include the archaeological component (Phase 1) and any other applicable heritage components. Appropriate (Phase 2) mitigation, which involves recording, sampling and dating sites that are to be destroyed, must be done as required.

No Heritage Impact Assessment was uploaded to this case. Nor a Palaeontological Impact Assessment was uploaded to the case on SAHRIS.

### SAHRA Notification of Development comment

SAHRA APM Unit requires a Heritage Impact Assessment study conducted by a suitably qualified professional archaeologist for the proposed development. The assessment should look at the built environment, graves, and archaeology of the proposed development.

The proposed development lies in a insignificant palaeontological sensitive zone (<http://www.sahra.org.za/sahris/map/palaeo>), thus SAHRA APM unit will exempt the development from conducting a Palaeontological Impact Assessment.

SAHRA will comment further on this proposed development once the above requested studies are submitted to the case.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.
