Interim Comment

IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999) AND SECTION 41 OF THE KWAZULU-NATAL AMAFA AND RESEARCH INSTITUTE ACT (ACT 05 OF 2018)

Attention: Platinum Cement Industries (Pty) Ltd

Proposed Cement Grinding Processing Plant on Remainder of Portion 2108 of Umlazi Native Location No. 4676, Umbogintwini, eThekweni Municipality, KwaZulu - Natal.

Thank you for submitting the final scoping for comment in terms of heritage legislation. A heritage study is required for the proposed area of development as it is sensitive in terms of heritage values including shell middens and historical sites. There is evidence of built structures in the general area.

A Heritage Impact Assessment is therefore required. The assessment should include assessment by experts in the specialist components including palaeontological studies.

The Study should cover:

- Identification of all heritage resources in the development area and its surroundings -50m
- Assessment of the impact of the development on such heritage
- Evaluation of the impact of the development on heritage resources relative to the sustainable social and economic benefits to be derived from the development
- Results of consultation with communities affected by the proposed development and other interested and affected parties regarding the impact of the development on heritage resources.
- Consideration of alternatives if heritage resources are affected by the development
- Mitigation plans for any adverse effects during and after completion of the project
- Table of all heritage resources identified. This should show Heritage resource type, description, location, significance and reasons for this rating.

Please download our list of Heritage Practitioners from our website www.heritagekzn.co.za

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.
