Application for permit for urgent (rescue) exhumation and reinterment of burial, Two Rivers Platinum Mine, Burgersdorp, Mpumalanga

Dear Mr Steyn and Mr Nienaber,

The SAHRA APMHOB permit committee received your application regarding the excavation of a burial within an Iron Age stock enclosure which was accidentally discovered during the collection of soil.

The committee agreed with the issuing of the permit. SAHRA understands that this is not a rescue excavation of an accidentally discovered burial *per se* but the excavation will aim also to establish a context for the grave through cleaning and recording of the trench made by the mechanical digger, partial excavation of the stock enclosure, collections of surface materials and mapping of the site.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Mariagrazia Galimberti
