A study of the diets of hunter-gatherers and herders of the Northern Cape, based on stable isotope analyses of small samples of bone from archaeological human skeletons.

Thank you for your permit application for the sampling of isotopes from a number of archaeological skeletons from the Holocene period housed at the McGregor Museum in Kimberley in order to study the diets of hunter-gatherers and herders from the Northern Cape.

Although at this stage the accession numbers of the individuals that will be most suitable for study are not known, SAHRA agrees that such circumstances, it is appropriate to apply for a permit to sample groups of skeletons, rather than specified individuals.

Decision

I am pleased to inform you that SAHRA has received your proof of payment and the Permit Committee has approved your application.

Please note that your permit is valid until 30 April 2016.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
