0001

To identify 10 specimens of faunal dentition from the site of Aves Cave on Bolt's Farm.

Dear Ms Potze,

the SAHRA APMHOB permit committee has received the application for a temporary export permit for the identification of ten Suidae teeth.

The permit committee agreed with the issuing of the permit. Please note that a condition of the permit is that the teeth will be hand carried by Dr Dominique Gommery who will be responsible for the fossil material while out of the country.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
