**The application to export South African heritage material is made to support the AMS radiocarbon dating and analysis of newly accessioned human skeleton material held at the University of Cape Town.**

Dear Prof. Pfeiffer,

the SAHRA Archaeology, Palaeontology, Meteorites, Heritage Objects and Burials permit committee has received the application submitted on your behalf by Dr Friedling requesting the permanent export of ribs from four skeletons, presumably from the LSA, for dating, isotope and histological analyses.

The committee agreed with the issuing of this permit.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
