This project aims to excavate and analyze the Earlier Stone Age material from the gravel layers at Canteen Kopje's southeast area. As part of our ongoing research there we aim to collect this data to understand the technology leading into the appearance of the Victoria West prepared core. The site is in Barkly West, Northern Cape Province.

Dear Dr Leader,

Thank you for submitting your application requesting a permit to excavate the Earlier Stone Age site of Canteen Kopje. The SAHRA Permit Committee has approved the application and has agreed to issue the permit for the excavation.

Please note that since Canteen Kopje is a Provincial Heritage Site, you will require permission from the Provincial Heritage Resources Authority of the Northern Cape responsible for Provincial Heritage Sites in the province before any work can proceed.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
