2050

Radiocarbon dating of hair fragment from Sibudu.

Dear Prof. Wadley,

the SAHRA APMHOB permit committee has received your application for export of a small piece of articulated animal hair from Sibudu Cave. The specimen is expected to be about 77ka old, however, confirmation of this would be sought through radiocarbon dating.

The permit committee agreed with the issue of the permit.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Mariagrazia Galimberti
