The project will include the development of a new low throughput poultry abattoir; with its associated infrastructure on the farm Nooitgedaght, Vryheid. The abattoir facility will be able to slaughter 2500 broilers daily. The site is located in the agricultural area of Vryheid.

We acknowledge receipt of your invitation for comment with regards to the proposed development. The general area in which the development falls is associated with heritage resources that include the Stone Age and Iron Age as well as Historical Era. For this reason an impact assessment is required.

Considering the heritage value of the area of proposed development, **a Heritage Impact Assessment is required for the above proposed project**. This must include the archaeological component (Phase 1) and any other applicable heritage components. Amafa KZN Heritage therefore requires the appointment of an Amafa accredited Heritage Practitioner to assist in the provision of recommendations and mitigation procedures.
