## **Final Comment**

**In terms of Section 38(8), 38(4) of the National Heritage Resources Act (Act 25 of 1999)**

Attention: Eugene Marais  
South Africa Mainstream Power Development (Pty) Ltd

**Klipfontein Solar Facility (Pty) Ltd is proposing to construct a 100MW commercial Photovoltaic (PV) solar power generation facility called Klipfontein which is located within 12 km from Dealesville in the Tokologo Local Municipality which is located in the Lejweleputswa District Municipality.**

SLR Consulting (South Africa) (Pty) Ltd has been appointed by Klipfontein Solar Facility (Pty) Ltd to undertake the Amendment Application for the authorised 100MW Klipfontein Photovoltaic (PV) Solar Facility on the Remainder of The Farm Kentani, Farm Number 953, Remainder of the Farm Klipfontein, No. 305, Remainder of Farm Oxford, Farm Number 1030 near Dealesville in the Tokologo Local Municipality, Free State Province (DFFE Reference: 14/12/16/3/3/2/726 )(as amended).

An application was submitted on SAHRIS on the 13/10/2014 to which a Final Comment dated 29/05/2017 was issued (Case ID: 6562 <https://sahris.sahra.org.za/node/398889>) which requested that excavations into Ecca Group be avoided where possible, and a site visit to be conducted prior to the construction phase of the projects in order to pinpoint localized spring and pan dune deposits that may be located within the development footprints.

The Final Environmental Management Programme (EMPr) has been submitted in terms of the National Environmental Management Act, 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA) 2014 Regulations. The EMPr notes that all the aspects adopted during the EA period for the Klipfontein Solar facility project are considered along with the final layouts, walkthroughs and surveys undertaken prior to the commencement of construction on the project as per the conditions of the EA.

ASHA Consulting (Pty) Ltd and Banzai Environmental (Pty) Ltd has been appointed to provide heritage specialist input as required by section 24(4)b(iii) of NEMA and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA).

*Orton, J. 2022. Preconstruction Archaeological Survey Of The Mainstream Kentani Suite Pv Projects (KLIPFONTEIN 1), Dealsville, Free State*

Stone Age occurrences of no archaeological significance have been identified within the proposed development area along with historical archaeological resources which have been avoided. It is recommended that the project be allowed to continue.

*Butler, E. 2022. Palaeontological Walkdown: Klipfontein Pv Project*

The development area is entirely underlain by Quaternary superficial deposits mantling the Jurassic dolerite and the Tierberg Formation of the Ecca Group (Karoo Supergroup). No fossils identified during the walk down. There is however a possibility that fossils may be uncovered during development and the attached Fossil Chance Finds Procedure must be implemented immediately.

SAHRA issued a final comment dated 22/03/2023 which noted that no heritage resources of significance have been identified in the proposed development area and endorsed the proposed development. A terrestrial ecology off-set implementation plan has been developed, however, there are no changes to the layout or the location of the properties involved.

## **Final Comment**

The following comments are made as a requirement in terms of section 3(4) of the NEMA Regulations and section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and Final EMPr must be amended to include the Final Comment:

- 38(4)a – The SAHRA Development Application Unit (DAU Unit has no objections to the proposed development as there are no changes to the changes to the layout or the properties involved;
- 38(4)b – The recommendations of the specialists are supported and must be adhered to. No further additional specific conditions are provided for the development;
- 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash

concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA APM Unit (Sityhilelo Ngcatsha/Natasha Higgitt 021 202 8660) must be alerted as per section 35(3) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;

- 38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA Burial Grounds and Graves (BGG) Unit (Thingahangwi Tshivhase/Ngqalabutho Madida 012 320 8490), must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)d – See section 51(1) of the NHRA;
- 38(4)e – The following conditions apply with regards to the appointment of specialists:
  - i) If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA;
  - The Final EMPr must be uploaded onto SAHRIS for record purposes.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

---
