### Environmental and Social Impact Assessment Report for the Gamsberg Zinc Mine and Associated Infrastructure in the Northern Cape

Dear Dr Orton,

The SAHRA APMHOB permit committee received your application for the mitigation of three Stone Age sites, GI1, GI2 and GI4 which will be affected by the expansion of the activities of the Gamsberg Zinc open cast mine. The permit committee agreed with the issue of the permit.

It is understood that for two additional sites, GI3 and GI5, only detailed mapping and description will be undertaken. No permit is requested for these activities.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
