Final Comment

IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999) AND SECTION 41 OF THE KWAZULU-NATAL AMAFI AND RESEARCH INSTITUTE ACT (ACT 05 OF 2018)

Attention: Afzelia Environmental Consultants Pty Ltd

76 Valley View Road, Morningside, Durban 4001

The Imfunda Yophongolo irrigation cluster one project is located in Umlalazi Umhlabuyalingana Local Municipality within Umkhanyakude District Municipality in Kwazulu-Natal.

Thank you for the opportunity to comment on your case.

The heritage practitioner, Mr. Anderson, identified several heritage resources of low significance. He further identified graves that falls within the development footprint.

Therefore we require a heritage practitioner to monitor the development during the excavation period.

The Institute therefore has no objection to the proposed development provided that the developer operates within the limits of the prescribed mitigation measures and recommendations. Development should not commence before approval of the Heritage Management Plan. You are also required to adhere to the below-mentioned standard conditions:

Conditions:

1. The KwaZulu Natal Amafa and Research Institute should be contacted if any heritage objects are identified during earth-moving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from the KwaZulu Natal and Amafa Research Institute.
3. Under no circumstances may any heritage material be destroyed or removed from site unless under direction of the KwaZulu Natal and Amafa Research Institute and a heritage specialist.

4. Should any remains be found on site that is potentially human remains, the South African Police Service (SAPS) should also be contacted. No SAPS official may disturb or exhume such remains, without the necessary permission from the KwaZulu Natal and Amafa Research Institute.
5. No activities are allowed within 50m of a site, which contains rock art.
6. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Failure to comply with the requirements of the National Heritage Resources Act and the KwaZulu Natal Amafa and Research Institute Act could lead to legal action being instituted against the applicant.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Bernadet Pawandiwa
Senior Heritage Officer
KwaZulu-Natal Amafa and Research Institute
