### **Final Decision**

#### **IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999) AND SECTION 41 OF THE KWAZULU-NATAL AMAFA AND RESEARCH INSTITUTE ACT (ACT 05 OF 2018)**

Attention: NS Environmental (Pty) Ltd

#### **Upgrade of the Kenneth Kaunda/ Beachway/ Umhlanga Rocks Drive, Durban KZN**

Thank you for the opportunity to comment. The proposed site of development is largely transformed and is not likely to yield any surface archaeological finds. While the site is located in a zone of high fossil sensitivity, the fossils can only be unearthed during excavations. A palaeontologist should be engaged to draft a Chance find protocol relating to fossil deposits. The Chance Find Protocol should be incorporated into the EMP for this project. The ECO and Project Manager responsible for the project, should monitor the site for fossils and report any findings to the palaeontologist for further investigation.

The KwaZulu Natal Amafa and Research Institute, therefore has no objection to the proposed development within limits of the stipulated conditions and mitigation measures.

You are also required to adhere to the below-mentioned standard conditions:

#### Conditions:

1. The KwaZulu Natal Amafa and Research Institute should be contacted if any heritage objects are identified during earth-moving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from the KwaZulu Natal and Amafa Research Institute.
3. Under no circumstances may any heritage material be destroyed or removed from site unless under direction of the KwaZulu Natal and Amafa Research Institute and a heritage specialist.
4. Should any remains be found on site that is potentially human remains, the South African Police Service (SAPS) should also be contacted. No SAPS official may disturb or exhume such remains, without the

5. No activities are allowed within 50m of a site, which contains rock art.

6. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
