

## Letter

### In terms of Section 35(4) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Mr Polke Birkholtz  
PGS Heritage and Grave Relocation Consultants  
PO Box 32542  
Totiusdal  
0134

**Permit application to allow for the disturbance of three Late Iron Age sites which are affected by the proposed development of the duplication of the Vlakfontein (Benoni) – Mamelodi Water supply pipeline within the existing servitude: R5 Phase 2: from the southern boundary off the Rietvlei Nature Reserve to Mamelodi. The three sites in question are P3-1, P3-2 and P3-10. These sites are located on the farm Zwartkoppies 364 JR, east of Pretoria, Gauteng Province.**

Dear Mr Birkholtz,

The SAHRA Archaeology, Palaeontology and Meteorites Unit received your application for disturbance of three sites which are expected to be affected by the construction of a pipeline by Rand Water between Mamelodi and Vlaakfontein.

The sites were well recorded during the first and second assessment and as such SAHRA does not require any further recording.

We would like to request that, as archaeologist monitoring the disturbance of the sites, you determine at any point of the work, if the integrity of the site will be affected in such a way that the scientific value of the site itself is compromised. Should you make at any point in time this determination, the disturbance of the site will be considered as destruction of it and as such wording on the permit will need to be amended. Please contact SAHRA should this become the case.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Phillip Hine
