Proposed excavation of a Iron Age stone wall enclosures with possible graves damaged during the construction of a Eskom 132kV power line from Der Brochen to Steenberg and the proposed Booyendal substations, Mpumalanga.

Dear Mr Mathoho,

the APMHOB permit committee received your permit application for a rescue excavation of a stone wall enclosure damaged during the establishment of a power line on Farm Schaapkraal 42JT. The application also included test excavation of heap mounds which may be burials.

Decision:

Permit committee has agreed with your proposal and your permit is attached.

We wish you every success with this project.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Mariagrazia Galimberti
