Attention: Mr Ednick Msweli

3 Prior Road, Durban, 4000

Proposed North Park Area Sewer Reticulation – Phase 2 project within Ward 63 of the eThekweni Municipality on multiple erfs associated with the Queensburgh township, Durban, EtheKwini, KwaZulu-Natal. Drawing 56748-1.

Thank you for the opportunity to comment. The heritage survey conducted by Frans Prins did not find any heritage resources in the development footprint. The proposed project is in a built-up area with more modern structures. The heritage practitioner indicates that the residential buildings older than 60 years are more than 200m from the project area and are not threatened by the development.

Amafa therefore has no objection to the development .

You are also required to adhere to the below-mentioned standard conditions:

Conditions:

1. Amafa should be contacted if any heritage objects are identified during earthmoving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from Amafa.
3. Under no circumstances may any heritage material be destroyed or removed from site unless under direction of Amafa and a heritage specialist.
4. Should any remains be found on site that is potentially human remains, the South African Police Service (SAPS) should also be contacted. No SAPS official may disturb or exhume such remains, whether of recent origin or not, without the necessary permission from Amafa.
5. No activities are allowed within 50m of a site, which contains rock art.
6. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Failure to comply with the requirements of the National Heritage Resources Act and the KwaZulu Natal Heritage Resources Act could lead to legal action being instituted against the applicant.
