THE PROPOSED STRUWIG AGRICULTURAL DAM LOCATED ON PORTIONS 9 & 10 ON THE FARM STRUWIG 15375, WARD 1, NDWEDWE LOCAL MUNICIPALITY (KZN 293), ILEMBE DISTRICT MUNICIPALITY

The application as described above has been considered by the Amafa Office responsible for compliance issues. The proposed development is likely to impact on heritage resources as it is located in a region that has yielded significant archaeological material. There is also a likelihood of impacting on graves and therefore a social consultation process should be done to establish presence or otherwise of graves or burial sites.

A Heritage Impact Assessment is therefore required to ensure that culturally and naturally sensitive areas and features can be mitigated or protected .

The Study should cover:

- Identification of all heritage resources in the development area and its surroundings -50m
- Assessment of the impact of the development on such heritage
- Evaluation of the impact of the development on heritage resources relative to the sustainable social and economic benefits to be derived from the development
- Results of consultation with communities affected by the proposed development and other interested and affected parties regarding the impact of the development on heritage resources.
- Consideration of alternatives if heritage resources are affected by the development
- Mitigation plans for any adverse effects during and after completion of the project
- Table of all heritage resources identified .This should show Heritage resource type, description, location, significance and reasons for this rating.

Please download our list of Heritage Practitioners from our website www.heritagekzn.co.za.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

PROPOSED STRUWIG DAM ,NDWEDWE LOCAL MUNICIPALITY
