PROPOSED PHOTOVOLTAIC ENERGY PLANT ON FARM KLIPGATS PAN NEAR COPPERTON, NORTHERN CAPE

Thank you for providing the revised layout for the proposed solar development on Klipgats Pan, near Copperton in the Northern Cape. SAHRA has reviewed this map and taken into consideration both the letter from Dr Orton (10 July 2013) and the EMP for the project (July 2013).

SAHRA is happy that the terms stipulated in the EMP reflect the recommendations stipulated in our review comment of 5 June 2012.

Therefore, as indicated in the EMP, and as requested by SAHRA, the new development area will be subject to an assessment by a professional archaeologist. The specialist will compile a report based on the findings of that assessment and submit the report to SAHRA for comment before the project commences.

All other recommendations made in the SAHRA review comment of 5 June 2012 still apply.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Kathryn Smuts
Heritage Officer: Archaeology
South African Heritage Resources Agency

Colette Scheermeyer
SAHRA Head Archaeologist
South African Heritage Resources Agency
