

## Final Comment

**In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999) and the KwaZulu-Natal Heritage Act (Act 4 of 2008)**

Attention: Vaximode Investment (Pty) Ltd

**The applicant proposes to construct approximately 3.8 km of sewer pipeline which will be 250mm in diameter. The pipeline will originate from the current Illovo Country Club (in the process of being upgraded to the Illovo Country Estate) to a proposed Pump Station. From the Pump Station, the pipeline will connect to the existing South Coast Sewer Pump Station. The pipeline is located within road reserves and sugarcane fields. It is located in Illovo, Kwa-Zulu Natal**

Thank you for the invitation for comment with regards to the notification of intention to develop the sewer reticulation. It is noted in the Basic Assessment Report that the pipeline will traverse a largely disturbed area. Interrogation of the archaeology database does not reflect sites along the proposed area. For this reason development may proceed as planned taking into consideration the standard conditions highlighted below.

Conditions:

1. Amafa should be contacted if any heritage objects are identified during earthmoving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from Amafa.
3. No activities are allowed within 50m of a site, which contains rock art.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

---

## Terms & Conditions:

1. This approval does not exonerate the applicant from obtaining local authority approval or any other necessary approval for proposed work.
2. If any heritage resources, including graves or human remains, are encountered they must be reported to Amafa immediately.
3. Amafa reserves the right to request additional information as required.
