Interim Comment

In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999) and the KwaZulu-Natal Heritage Act (Act 4 of 2008)

Attention: eThekweni Municipality
19th floor
75 Langalibalele Dube St.
Durban

The construction of Community Ablution Blocks (CABs) and associated infrastructure in Umlazi K and L, eThekweni Municipality .As part of the “Provision of Water and Sanitation to Informal Settlements within eThekweni Municipality”, certain priority informal settlements were identified within the eThekweni Municipality that urgently need ablution blocks, as well as water and sewer connections to serve the communities immediate needs. The proposed laid pipes (water and sewer) will tie-into existing reticulation and will provide future reticulation when the area is developed.

A Heritage Impact Assessment (HIA) is required for this project as the area of proposed development is considered sensitive in terms of heritage values. There is possibility of informal graves in this area. Public participation evidence and results should form part of the HIA.

This must include the archaeological component (Phase 1) and any other applicable heritage components. Amafa KZN Heritage therefore requires the appointment of an Amafa accredited Heritage Practitioner to assist in the provision of recommendations and mitigation procedures.

Please download our list of Heritage Practitioners from our website www.heritagekzn.co.za.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
