Proposed Road Safety Improvements Upgrade Of Mthombothi / Mdlebe Mtshona Intersection KwaZulu-Natal. The improvements will include the widening of the existing intersection in order to increase the capacity, as well as the rehabilitation of the existing pavement structure.

0048
Thank you for notifying Amafa about this development. Amafa APMBG Unit has considered and accepts the motivation for exemption from a Full Heritage Impact Assessment based on the desktop study undertaken by Gavin Anderson of Umlando on the proposed upgrade . The report concludes that no heritage resources are likely to exist as the the road footprint has been extensively transformed by various developments over the years .

For this reason Amafa , the KwaZulu Natal Heritage Authority has no objection to the development .

You are also required to adhere to the below-mentioned standard conditions:

Conditions:

1. Amafa should be contacted if any heritage objects are identified during earthmoving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from Amafa.
3. No activities are allowed within 50m of a site, which contains rock art.
4. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Failure to comply with the requirements of the National Heritage Resources Act and the KwaZulu Natal Heritage Resources Act could lead to legal action being instituted against the applicant.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
