Thank you for your invitation to comment on the above proposed development. SAHRA APM Unit notes that a Heritage Impact Assessment will be conducted for this particular project. Please note that the report needs to be submitted to the SAHRA APM Unit for commenting.

The developer must ensure that a Palaeontological study is undertaken to assess whether or not the development will impact upon palaeontological resources - or at least a letter of exemption from a Palaeontologist is needed to indicate that this is unnecessary. (See attached list of accredited Palaeontologists)

Very many thanks for your co-operation.

Yours sincerely

PP Colette Scheermeyer
