

## Interim Comment

**In terms of Section 38(8) of the National Heritage Resources Act (Act 25 of 1999) and the KwaZulu-Natal Heritage Act (Act 4 of 2008)**

**A new sewage line servicing Ward 20 Edendale, within Msunduzi Municipality is proposed. A total of approximately 5km pipeline is envisaged, however approximately 1km of this lies adjacent to the Mzibukazi River. Kwa-Zulu Natal**

Thank you for the invitation to comment in terms of the heritage legislation and NEMA. The area in which the pipeline cuts across is associated with various forms of heritage including liberation heritage, graves, battlefields and archaeological sites. The Paleontological Sensitivity Map also triggers a paleontological study.

Considering the heritage value of the area of proposed development, **a Heritage Impact Assessment is required.** This must include the historical, archaeological (Phase 1), the paleontological study and any other applicable heritage components. Amafa KZN Heritage therefore requires the appointment of an Amafa accredited Heritage Practitioner to assist in the provision of recommendations and mitigation procedures. Please download our list of Heritage Practitioners from the Permits/Permits and Heritage Resources Management field of the website [www.heritagekzn.co.za](http://www.heritagekzn.co.za)

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
