Final Comment

The SAHRA Archaeology, Palaeontology and Meteorites Unit has no objection to the proposed development in terms of the archaeological component of the heritage resources.

Considering the nature and extent of the proposed development, no palaeontological studies are required, however a protocol for finds is required.

If any new evidence of archaeological sites or artefacts, palaeontological fossils, graves or other heritage resources are found during development, construction or mining, SAHRA or an archaeologist and/or palaeontologist depending on the nature of the find, must be alerted immediately.

Decisions relating to the Built Environment features recorded must be obtained from the relevant provincial heritage authority.
