

## **Final Comment**

### **In terms of Section 38 of the National Heritage Resources Act (Act 25 of 1999)**

Attention: City of Tshwane Metropolitan Municipality  
PO Box 440  
Pretoria  
0001

**The Construction of Pedestrian Sidewalks and Cycle Paths along Church Street and Buitekant Street, around the Mabopane Station towards the Soshanguve Station and around the Giant Stadium in the Mabopane Area of the City of Tshwane Municipality, Gauteng**

**Küsel, U. May 2013. Cultural Heritage Resources Impact Assessment For The Construction Of A Proposed Pedestrian Pathway And Cycle Path At Mabopane, Gauteng Province**

The proposed project entails The Construction of Pedestrian Sidewalks and Cycle Paths along Church Street and Buitekant Street, around the Mabopane Station towards the Soshanguve Station and around the Giant Stadium in the Mabopane Area of the City of Tshwane Municipality, Gauteng

The author states that the pathways are next to existing tar roads in the road reserve and that the areas have been graded in the past, destroying any possible heritage sites. The author states that no significant cultural heritage resources or graves were found on or near the proposed pathway routes.

### **Decision**

The proposed development takes place in an area of insignificant palaeontological sensitivity and a palaeontological assessment is not required.

SAHRA Archaeology, Palaeontology & Meteorites (APM) Unit has no objection to the proposed development on the condition that if any evidence of archaeological sites or remains, unmarked human burials, fossils or other categories of heritage resources are found during the proposed activities, SAHRA APM Unit must be alerted immediately, and a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contacted as soon as possible to inspect the findings. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance a Phase 2 rescue operation might be necessary.
