Application for Exemption from full HIA process: New Natural Gas Transmission Supply Pipeline to SAB Pty Ltd on Erf 79, Erf 9 and Erf 66 Rosslyn, Akasia, Tshwane Metropolitan Municipality, Gauteng Province

Kitto, J. November 2018. Construction of new natural gas pipeline on Erf 79, Erf 9 and Erf 66 Rosslyn, Akasia, City of Tshwane Metropolitan Municipality, Gauteng Province Site Assessment and Heritage Screening Report

The proposed development entails a new natural gas transmission supply pipeline to SAB Rosslyn, Akasia, Tshwane Metropolitan Municipality, Gauteng Province.

The author states that, during the survey, no significant heritage features were located, and recommends that no negative impacts on heritage resources are foreseen and no mitigation is required.

The SA Palaeontological Sensitivity Map indicates that the study area has Insignificant fossil sensitivity.

Final Comment

In terms of archaeological and palaeontological heritage, the SAHRA Archaeology, Palaeontology and Meteorites Unit has no objections to this proposed development and requires no further archaeological or palaeontological assessments, provided that the recommendations in the specialist report and this comment are adhered to, and on the following conditions:

- If any evidence of archaeological sites or remains (e.g., remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments and charcoal/ash concentrations) or palaeontological remains are found during the proposed activities, SAHRA must be alerted immediately, and a professional archaeologist or palaeontologist, based on the nature of the finds, must be contacted as soon as
