0028

Residential township at a density of 70 dwelling units per hectare Willow Park Manor Extension 74 Tshwane Gauteng

Van Schalkwyk, J. May 2017. Phase 1 Cultural Heritage Impact Assessment: The Proposed Township Establishment On The Remainder Of Portion 364 Of The Farm Willows 340-JR (Willow Park Manor X74), City Of Tshwane Metropolitan Municipality, Gauteng Province

The proposed development entails a township development with related infrastructure.

The author states that no sites, features or objects of cultural heritage significance were identified in the study area.

The SA Palaeontological Sensitivity Map indicates that the study area has High fossil sensitivity. No palaeontological assessment has been attached to this case.

Interim Comment

In terms of archaeological heritage, the SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit has no objections to this proposed development, provided that the recommendations in the specialist reports and this comment are adhered to, and on the following conditions:

- If any evidence of archaeological sites or remains (e.g., remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments and charcoal/ash concentrations) are found during the proposed activities, SAHRA must be alerted immediately, and a professional archaeologist must be contacted as soon as possible to inspect the findings. If the newly discovered heritage resources prove to be of significance a Phase 2 rescue operation might be necessary.

In terms of palaeontological heritage, the SA Palaeontological Sensitivity Map indicates that the study area
