### PROPOSED LOG CABINS AND OTHER ASSOCIATED STRUCTURES AT OORLOGSKLOOF NATURE RESERVE, NORTHERN CAPE PROVINCE. (Reference Number: DEAT 1/2000/1764)

There is no current development on site that may have adverse effect on the gravesite, therefore there is no need to fence it off from the hiking trail. Continued maintenance by the Reserve Manager is advised and supported.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully
