### FINAL COMMENT

**IN TERMS OF SECTION 38(8) OF THE NATIONAL HERITAGE RESOURCES ACT (ACT 25 OF 1999) AND SECTION 41 OF THE KWAZULU-NATAL AMAFA AND RESEARCH INSTITUTE ACT (ACT 05 OF 2018)**

**Attention: Tugela Ferry Agriculture Co-Op**  
**Private Bag X519, Tugela Ferry, 3010**

**RE: Tugela Ferry Agriculture Co-Op propose to construct a new siphon within Block 1 of the scheme and a new abstraction point within Block 6 of the scheme on Remainder of Impafana Location No. 4677 and Portion 25 of Klip River Native Location No. 4665, KwaZulu-Natal.**

Thank you for the opportunity to comment on your case. The heritage impact assessment yielded no heritage that will be impacted by the development. The palaeontology assessment identified that the geological structures suggest that the rocks are much too young to contain fossils therefore the likelihood of fossils are slim

The KwaZulu Natal Amafa and Research Institute, (Formerly Amafa aKwaZulu Natal, Heritage KwaZulu Natal, Erfenis KwaZulu Natal), therefore has no objection to the proposed development within limits of the stipulated conditions and mitigation measures.

You are also required to adhere to the below-mentioned standard conditions:

Conditions:

1. The KwaZulu Natal Amafa and Research Institute should be contacted if any heritage objects are identified during earth-moving activities and all development should cease until further notice.
2. No structures older than sixty years or parts thereof are allowed to be demolished altered or extended without a permit from the KwaZulu Natal and Amafa Research Institute.
3. Under no circumstances may any heritage material be destroyed or removed from site unless under direction of the KwaZulu Natal and Amafa Research Institute and a heritage specialist.
4. Should any remains be found on site that is potentially human remains, the South African Police Service (SAPS) should also be contacted. No SAPS official may disturb or exhume such remains, without the necessary permission from the KwaZulu Natal and Amafa Research Institute.
5. No activities are allowed within 50m of a site, which contains rock art.
6. Sources of all natural materials (including topsoil, sands, natural gravels, crushed stone, asphalt, etc.) must be obtained in a sustainable manner and in compliance with the heritage legislation.

Failure to comply with the requirements of the National Heritage Resources Act and the KwaZulu Natal Amafa and Research Institute Act could lead to legal action being instituted against the applicant. Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

---

Terms & Conditions:

1. This approval does not exonerate the applicant from obtaining local authority approval or any other necessary approval for proposed work.
2. If any heritage resources, including graves or human remains, are encountered they must be reported to the Institute immediately.
3. The Institute reserves the right to request additional information as required.
