2. Motivation for proposed work (Please motivate fully – on a separate sheet if necessary)

Lifestyle: The owners would really like to enhance the amenity on their property in order to enjoy an improved quality of life - in line with that of their surrounding neighbours.

This slight change to the pool can significantly improve the sense of space of the living room in the house while also strengthening the connection between the inside and outside space - this connection is of great significance to the warm Durban climate.

Maintainence & Condition: In order for the owners to acheive their objective, they wish to replace their existing swimming pool, which is presently in a delapidated condition; and position it further away from the house. Moving the pool toward the tennis court links the recreational activities; allowing the large sliding folding doors on the south east facade, which lead to a patio, to open up into more functional space.

1. Detail the alterations/additions/restorations proposed (Briefly outline the proposal)

The following proposal is for the alteration/addition of a new pool to the south east of the existing dwelling. The pool is to be replaced while the existing waste water service drains are to remain in tact; and connect to the new pool.
