Attention: Mr D Jamieson

Dear Mr Jamieson

ARCHAEOLOGICAL MONITORING: PINELANDS BUSINESS PARK (PORTION OF ERF 24164)

In conforming with the rezoning requirements of the City Council, members of our office inspected the site last week. In our opinion the construction activities taking place here pose no threat to archaeological material and may proceed unhindered.

Recently, an investigation was launched on the other portion of Erf 24164 to the North of Jan Smuts Drive, to establish the veracity of reports that a shipwreck was buried below the landfill. This site is some distance from the current project and hence we feel justified in not placing to high a priority here.

Thank you for contacting us in this regard.

Yours sincerely

Dave Halkett
