Dear Mr Cullinan

#### HERITAGE IMPACT ASSESSMENT: BELFAST EXTENSION 6 TOWNSHIP

As requested, we have investigated portion 77 of the farm Tweefontein 357JT where the above-mentioned development will take place. The area is located east of Vernooten Street, which is the main road entering Belfast town from the south, and opposite of the junction with Linaria Street (Fig. 1). The area is currently argely used as a rugby field.

The scope of work consisted of conducting a Phase 1 archaeological survey of the site in accordance with the requirements of Section 38(3) of the National Heritage Resources Act (Act 25 of 1999). This included:

- Conducting a desk-top investigation of the area;
- A visit to the proposed development site.

The objectives were to

- Identify possible archaeological, cultural and historic sites within the proposed development areas;
- Evaluate the potential impacts of construction, operation and maintenance of the proposed development on archaeological, cultural and historical resources;
- Recommend mitigation measures to ameliorate any negative impacts on areas of archaeological, cultural or historical importance.

We have found no obvious features, sites or artefacts of cultural significance that would be impacted on by the proposed development. We therefore recommend, from a heritage point of view, that the proposed development can continue and requests that if archaeological sites or graves are exposed during construction work, it should immediately be reported to a museum, preferably one at which an archaeologist is available, so that an investigation and evaluation of the finds can be made

Yours sincerely

J van Schalkwyk
