Mary Leslie  
SAHRA, Archaeology, Palaeontology and Meteorite Unit  
111 Harrington Street  
Cape Town  
8000

Dear Mrs. Leslie

**EXEMPTION OF THE FOLLOWING PROPOSED VODACOM BASE STATIONS AND  
MASTS FROM FULL HIA INVESTIGATION; WITKOP**

After investigation of the above mentioned site the following recommendations are given regarding the applicability of a full HIA study;

**WITKOP;** Prominent changes in plantgrowth in the study area indicate a local source of water. The site is elevated over the surrounding area and is therefore defensible. This site is conducive to pre- and post-contact occupation and warrants further investigation. It is recommended that a full HIA be performed on this site to determine its cultural heritage significance.

The previously mentioned recommendations are based on information gathered during physical site visits.

Should you have any questions regarding these recommendations please contact us at any time.
