Cape Town
8000

Dear Mrs. Leslie

RECOMMENDATIONS ON THE FOLLOWING PROPOSED VODACOM BASE STATION AND MAST FROM FULL HIA INVESTIGATION; TSHAMULUNGWE 166 MT, MUTALE LOCAL MUNICIPALITY.

After investigation of the above mentioned sites the following recommendations are given regarding the applicability of a full HIA study;

TSHAMULUNGWE 166 MT: This site lies within a village. The area has been subject to extensive damage over the past 15 years. Due to this damage the site is not anticipated as having any heritage significance. It is recommended that the site be exempt from full HIA investigation.

The previously mentioned recommendations are based on information gathered during physical site visits.

Should you have any questions regarding these recommendations please contact me at any time.

Sincerely
Stephan Gaigher
(FIELD SUPERVISOR)
