

## ANNEXURE 4: SITE AND CONTEXT IMAGES

**Photograph 1: Stranfontein pavilion seen from Baden Powel Dr to the north east of the intersection with Strandfontein Rd**  
(Google Earth Street View, September 2009)

**Photograph 2: Entrance to Strandfontein Resort off Baden Powel Dr, looking south from intersection with Strandfontein Rd**  
(Google Earth Street View, September 2009)

**Photograph 3: Internal Rd to the north of the parking terrain west of the Strandfontein Pavilion, looking east.**

The proposed desalination plant site is located at the far (eastern) end of the parking area. The treated water injection pipeline would be aligned to the north of the road (i.e. left in the photo).

(Google Earth Street View, September 2009)

**Photograph 4: Desalination plant site seen from parking area west of Pavilion, looking east. The site immediately behind the electricity infrastructure.**

(Google Earth Street View, September 2009)

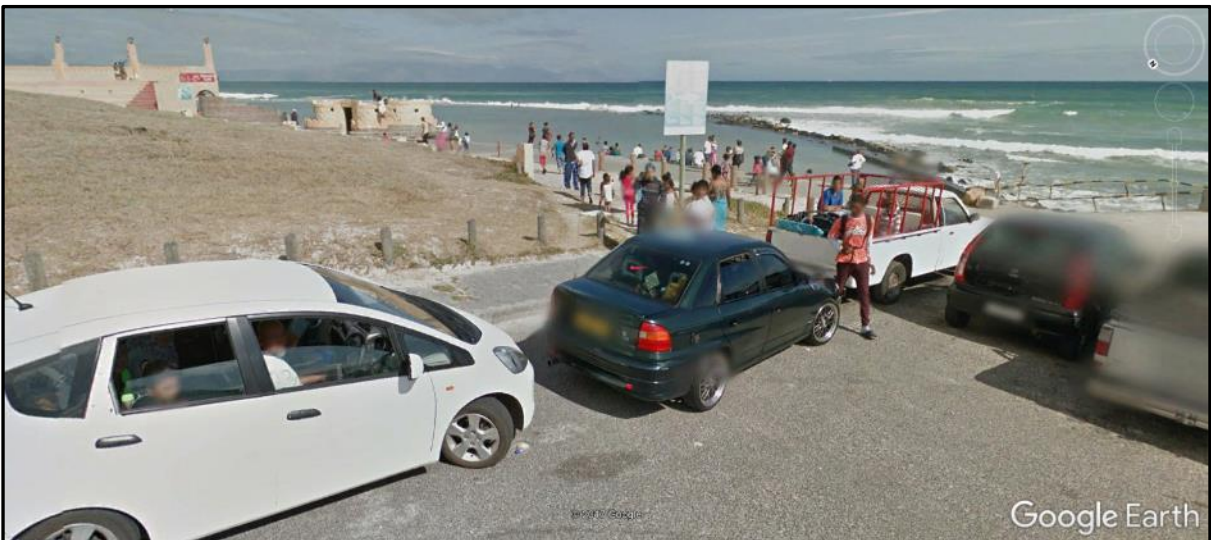

**Photograph 5: Desalination plant site seen from east along internal road north of parking area**  
(Google Earth Street View, September 2009)

**Photograph 6: Southernmost portion of desalination plant site (left of building).**  
The brine discharge pipeline would be located approximately 20 m to the east (behind) the building; the raw water pipeline would be located to the west of the building (viewer's side), and skirt the playground to the west (immediate foreground).
