Dear Ms Winter

Boschendal Founders Estates: Section 27 NHRA Application for Bulk Services

Report (dated September 2022) prepared by Sarah Winter Heritage Consultant with inputs from Bernard Oberholzer Landscape Architect, and David Halkett and John Gribbe of the Archaeological Office.

The findings as stated in the Report and the recommendations relating to all aspects of the bulk services to be installed, in order to limit the visual impact on the landscape, and to avoid destruction of possible archaeological remains, are supported.

Kind regards

Patricia Botha
(Chairperson)
