Archaeological Impact Assessment for proposed mining on a portion of the farm Etrick 182, Herbert NC30/5/1/3/2/1963 MP : FOR applicant JUSTICE THEKISHO. Previously applied for under SAHRA REF 9/2/038/0001.

I enclose a copy of a Phase 1 heritage report relating to the above application that was originally produced by Ms Karen van Ryneveld of this museum in 2005. The report is still relevant and valid for the area surveyed, as would be the review comment given at the time by SAHRA's national office (attached to the report).

The present application is for the ~1.2 ha area defined by:

A	29.33611 S	23.89861 E
B	29.33694 S	23.89861 E
C	29.33694 S	23.89722 E
D	29.33611 S	23.89722 E

This falls well within the area surveyed in 2005. I would reiterate what is stated in both the report and the SAHRA review that, *in the event of the proposed area of mining being extended*, a prior assessment of the larger site must be carried out.

I trust that this will be in order.

Yours faithfully

David Morris
Head of Archaeology
