

ADDITIONAL COMMENTS ON THE ‘CULTURAL HERITAGE OF THE MADIMATLA CAVE AND SURROUNDING AREA’.

With reference to my comments/ recommendation (see 7 paragraph 2):
“The first important step is to declare the Madimatle site a provincial or national heritage site” the following:

It is necessary to understand that as a site of intangible heritage significance it is not only the cave site of Madimatle which is of significance but the surrounding area, subterranean as well as where natural resources are being harvested. The size and demarcation of this surrounding area is to be determined in consultation and cooperation with the users. Furthermore, SAHRA guidelines will also determine the demarcation of the intended size for declaration.
