Dear Liandra,

The presence of these roads was assumed when I compiled my statement, despite the alignment not being provided, and therefore not known.

As these roads link turbines along ridges, which have already been determined to be in areas of low heritage sensitivity, the road alignments as supplied do not change the conclusions and recommendations contained in the letter already provided.

Best,

Katie

Subject: 16235 Kudusberg Split Part 2 Amendment process ((DEFF Reference Number: 14/12/16/3/3/1/1976/AM2))

Dear Specialists

Please see the map below and attached for ease of reference:

This existing road was not reflected on previous layouts, but was accessed during the Kudusberg Split Part 2 Amendment process (DEFF Reference Number: 14/12/16/3/3/1/1976/AM2).

The roads will be maintained (re-gravelled) during construction and operation but will not be widened and as such do not trigger any listed Activity under the National Environmental Management Act (NEMA): Environmental Impact Assessment (EIA) Regulations of 2014 as amended.

Please confirm if this road will have any bearing on your specialist findings.

Please respond to this email, we would like to submit this in Friday 22 January 2021.

Kind regards

Liandra Scott-Shaw (Pr.Sci.Nat)
