P.O. Box 1454, Pretoria, 0001

Contact person: Livhuwani Siphuma; Tel: 012 358 5766;

E-mail: LivhuwaniS@tshwane.gov.za

Date of report: 22 April 2015

B. EXECUTIVE SUMMARY

The site lies in a flat area with mixed bushveld. The site was inspected on foot and recorded. Visibility was relatively good as the grass was not too dense. The site has illegal dumping here and there.

Though the site was walked no important Cultural Heritage Resources or graves could be found. There is no objection to the proposed development from a Cultural Heritage Resources point of view.

If during construction any cultural heritage resources or graves are unearthed all work has to be stopped until the site has been inspected and mitigated by a cultural heritage practitioner.

D. BACKGROUND INFORMATION ON PROJECT

(a) Whether the report is part of a scoping report EIA/HIA or not

The report forms part of an Basic Assessment Process

(b) Type of Development (e.g. low cost housing project, mining etc.)

Cemetery expansion

(c) Whether re-zoning and/or subdivision of land is involved

No re-zoning or subdivision is required

(d) Developer and consultants and owner contact details

(e) Terms and Reference

The broad generic term *Cultural Heritage Resources* refers to any physical and spiritual property associated with past and present human use or occupation of the environment, cultural activities and history. The term includes sites, structures, places, natural features and material of paleontological, archaeological, historical, aesthetic, scientific, architectural, religious, symbolic or traditional importance to specific individuals or groups, traditional systems of cultural practice, belief or social interaction.

The Environmental Management Services Department of the City of Tshwane is proposing to expand the existing cemetery site on the Remaining extent of Portion 33 of the farm Mabopane 702 JR. The proposed site is currently operating as a cemetery

however the burial site has reached full capacity – resulting in the need for expansion. The total property area is 305.31 ha of which 18.5 ha is now full. The proposed area of expansion measures approximately 44.76 ha in extent. Aurecon South Africa (Pty) Ltd was appointed by the City of Tshwane to provide environmental services for the National Environmental Management Act, Act 107 of 1998(NEMA) Basic Assessment for the proposed expansion.

(f) Legislative requirements of Act 25 of 1999.

Protected sites in terms of the National Heritage Resources Act, Act No. 25 of 1999

The following are the most important sites and objects protected by the National Heritage Act:

- Structures or parts of structures older than 60 years.
 - Archaeological sites and objects.
 - Paleontological sites.
 - Meteorites.
 - Ship wrecks.
 - Burial grounds.
 - Graves of victims of conflict.
 - Public monuments and memorials.
 - Structures, places and objects protected through the publication of notices in the Gazette and Provincial Gazette.
 - Any other places or objects, which are considered to be of interest or of historical or cultural significance.
- 1.1 Geological sites of scientific or cultural importance.
 - 1.2 Sites of significance relating to the history of slavery in South Africa.
 - 1.3 Objects to which oral traditions are attached.
 - 1.4 Sites of cultural significance or other value to a community or pattern of South African history

Regulation GN R983, promulgated in terms of the NEMA, Environmental Impact Assessment Regulations, 2014, lists activities which may not commence without a Basic Assessment process and environmental authorisation from the competent authority, in this case the Gauteng Department of Agriculture and Rural Development (GDARD).

The relevant listed activity reads as follows:
“GN R 983 Activity 44 of Listing Notice 1: The expansion of cemeteries by 2500 square metres or more”.

According to the National Water Act 36 of 1998, a General Authorisation is also required from the Department of Water Affairs.

E. BACKGROUND TO THE ARCHAEOLOGICAL AND HISTORY OF THE AREA

The most important heritage site near Ga-Rankuwa and Mabopane area is the Tswaing Meteorite Crater. Originally geologists thought that it was a volcanic crater, but later research found that it was a meteorite crater. The crater is 1.13 kilometre in diameter and originally was 200 meter deep. The crater was formed 200 000 years ago by a meteorite. The sediments in the crater contain salt which has been utilized by Stone Age people as far back as 100 000 years. Iron Age people also used the resources. On the western rim of the crater is a Late Iron Age stonewalls settlement.

In modern times the sediment was mined to extract soda ash which was transported to Hammanskraal by donkey wagon from where it was transported by train (Partridge, T.C. 1999 & National Cultural History Museum information sheet).

To the south of Mabopane lie the Magalies Mountains and Swartkoppies Granite Hills. These hills have hundreds of Late Iron Age Tswana stonewalled archaeological sites (Mason, R. 1962 pp 371, and Küsel U.S. 2007).

The proposed development area lies on the border between Mabopane and Soshanguve townships. This area north of Pretoria originally developed as settlement for Black people who didn't qualify to live in Pretoria according to Act 25 of 1945, (which controlled Bantu labour in white cities). The main settlement for these forcefully removed people was Winterveld. To the south of Winterveld developed Mabopane which later became part of Bo-Phuthatswana in the 1970's. As this was an area of mixed language groups, Mabopane West was reserved for Tswana speaking people. The rest had to move to Mabopane East which was renamed Soshanguve (Sotho, Shangaan, Nguni and Venda). The area was split by a new railway line and station where the present development will take place (Wikipedia & Küsel, U.S.)

F. DESCRIPTION OF THE PROPERTY OF AFFECTED ENVIRONMENT

(a) Detail of area surveyed:

- Full location Data for Province, Magisterial District/Local Authority and property (e.g. Farm erf) name and number etc.;

*Gauteng Province, City of Tshwane Metropolitan Municipality (DEM389),
Remaining Extent of Portion 33 of the Farm Mabopane 702 JR (SG 21 Digit Code
– TOJR00000000070200033*

- Location map(s)/orthophotos of the general area that were used are:

1/50 000 Map: Soshanguve 2528 AC

Co-ordinates: S25° 28' 42.90" & E28° 01' 43.01"

- Either the Location Map or the Site Map must have the polygon of the area surveyed marked on it and full geographical co-ordinates for all relevant points and where applicable, indication of the area to be developed (footprint).

Attached pages 10 & 11

(a) Description of the Methodology

All literature on the site was studied. The site is mixed bushveld in a flat valley. Visibility was fair as the grass was not too dense. The site was inspected on foot and by vehicle and also recorded.

G. DESCRIPTION OF SITES MAPPED

The site is mixed bushveld with indigenous trees and grass. It lies on the outskirts of a settlement (Mabopane and Winterveld) and illegal dumping takes place near the settlement. The site was walked on foot but no important Cultural History resources or graves were found- see photographs

Mixed Bushveld of the area surveyed

H. DESCRIPTION OF THE ARTEFACTS, FAUNA, BOTANICAL OR OTHER FINDS AND FEATURES

None

I. CLEAR DESCRIPTION OF BURIAL GROUNDS AND GRAVES

None found

J. EVALUATION AND RATING (FIELD RATING)

Not applicable

K. STATEMENT OF SIGNIFICANCE (heritage value)

Not applicable

L. RECOMMENDATIONS AND CONCLUSIONS

Though the site was walked, no important Cultural Heritage Resources or graves could be found. There is no objection to the proposed development from a Cultural Heritage Resources point of view.

If during construction any cultural heritage resources or graves are unearthed all work has to be stopped until the site has been inspected and mitigated by a cultural heritage practitioner.
