Natasha Higgitt

Manager: Development Applications Unit

South African Heritage Resources Agency

111 Harrington Street

Cape Town 8001

Dear Ms Higgitt

Clarification on site DH101 in the development footprint of the Doornhoek 1 PV facility, North West Province (SAHRIS Case ID 19211).

Beyond Heritage was appointed to conduct a Heritage walk-down for the authorised photovoltaic (PV) solar energy facility (known as the Doornhoek 1 PV facility) located on a site approximately 11km north of Klerksdorp in the North West Province. One of the recommendations in the Heritage walk-down report for the approved Doornhoek 1 PV Facility and Associated Infrastructure, Klerksdorp, North West Province (Van der Walt 2023) stated that stakeholders should be consulted regarding a recorded feature assumed to be an informal church (DH101).

During the Stakeholder Consultation process, the landowner (Mr James Orford) confirmed that the feature is not a church but a result of workers (who were cutting down trees) using this area as a temporary camping site (Annexure A).

This recommendation was therefore successfully addressed, and the feature is of no heritage significance and required no additional mitigation.

Any further queries can be forwarded to Jaco van der Walt on Cell: +27 82 373 8491 or to jaco@heritageconsultants.co.za.
